# 📢 Guidelines for AutoCoder: The Digital Storytelling Challenge 📢

## 👥 Storytelling and Web Design:

- You are required to create a website centered around a unique and compelling story.
- The story can be fictional, non-fictional, or inspired by real-world events, but it must be original.
- The website should blend narrative creativity with technical implementation, using interactive and multimedia elements (e.g., images, videos, animations).

---

## 📑 Event Rounds:

- **Round 1: Narrative Design and Web Layout:**
    - **Create a story outline and design an initial web layout that reflects your narrative.**
    - **Incorporate Multimedia elements (e.g., images, videos, animations) to enhance the story.**
- **Round 2: Full Website Development:**
    - **Build a fully functioning website based on your Round 1 layout.**
    - **Focus on user engagement and interactive storytelling features.**
    - **Utilize advanced web technologies (GSAP, WebGL, etc.) to create an immersive experience.**

---

## 🖼 Compulsory Use of AI Image Generator:

- **All images used in your project must be generated using the [AI Image Generator](#).**

---

# 💁 Judging Criteria:

- **Creativity & Originality: Unique story and web design.**
- **Narrative Integration: How well the story is woven into the design.**
- **User Experience (UX) & Interactivity: Engaging and interactive website.**
- **Technical Proficiency: Smooth animations, clean code, and interactive elements.**
- **Visual Appeal: Aesthetic elements (colors, typography, images).**
- **Overall Impact: Emotional/intellectual effect of the story on users.**

---

# 🚀 Deployment:

- **Compulsory: All participants must deploy their finished websites and share the deployed link and github repo link as part of their submission.**

---

# 🦮 Mandatory Guidelines 🦮

- **Reporting: Ensure your presence before 9.45 AM.**
- **Kindly mark your attendance to facilitate the accurate recording of the participants.**
- **Venue: Peter Drucker Hall, SRMIST Delhi-NCR Campus, Modinagar**
- **Teams: 2-4 participants per team.**
- **Participants should ensure bringing their own Laptops**

**Good luck, and let your creativity flow! 🎨💻**

**NOTE : LINK This serves as a high-level example to guide your approach. You are encouraged to take inspiration from this website, but your submission should reflect original and creative thought, showcasing your unique interpretation and design skills.**
